Although the "Agriculture" industry sector is not a part of the Unemployment Insurance Program, agriculture is an important contributor to jobs and the economic development in Morgan County.

- There are over 300,265 acres of farm land
- Those acres make up over 693 farms
- 25% hire farm labor
- The market value of the products sold totaled \$172,017,000 last year

The value of the farms themselves coupled with additional agriculture-related businesses makes agriculture a valuable part of the employment and economic development statistics for Morgan County.
