Although the "Agriculture" industry sector is not a part of the Unemployment Insurance Program, agriculture is an important contributor to jobs and the economic development in Scott County.

- There are over 155,444 acres of farm land
- Those acres make up over 300 farms
- 25% hire farm labor
- The market value of the products sold totaled \$84,659,000 last year

The value of the farms themselves coupled with additional agriculture-related businesses makes agriculture a valuable part of the employment and economic development statistics for Scott County.
